MILFs take it up the ass. It's a simple concept that is not terribly well executed in **Mommy Dear Ass** from Combat Zone Productions.

There are a few problems to address in a disc that is really aimed at a niche market. One has to do with the women. The "mommies" in this case need to be attractive. I don't know that the audience is clamoring for someone who looks like they've had a litter. Some of the women live up to the standard most men require of their porn...and some do not.

The other component, the anal sex, is an act that has become pretty basic in porn. That said, it still requires some preparation, which in at least one case it seemed was not done. You want to ruin an anal DVD? Give the viewer the impression that the asses being fucked are not clean. We all know what an asshole does - no one needs reminding - but unless it's a scat flick, we generally like to pretend it's just another erogenous zone.

The Action

Scene 1: Darryl Hanah

A tall, tattooed blonde, Hanah is a looker who turns in arguably the best sex of the disc. After a short strip tease, she fingers herself until her co-star arrives and quickly puts his tongue to work on her asshole.

He gets down to business fucking her doggie style bent over the kitchen counter and Darryl seems to be enjoying the attention. She sucks her own juice off his dick before the action moves to a couch and she climbs on top.

After a quick ride, he lays her down and begins the anal penetration missionary style with her legs spread eagle. To keep the lubrication going, she goes ass-to-mouth before sitting on his dick. He can't take much more and ends it with a thick load on her tongue.

Scene 2: Syren Demer

This raven-haired lady looks a little older than Darryl, with both lines on her face and ass. Still, she's not bad looking and starts off in a similar manner, playing with herself until her co-star appears. He licks her pussy before sticking his dick in her mouth for a slow blow.

They switch to missionary and she sounds like she's into it. He pulls out and begins fingering Syren's ass and pussy before they switch over to anal doggie.

She keeps up the noise as he plays with her clit and the lean over for some anal spooning. She does an ass-to-mouth BJ and he switches positions so she can climb back on while giving the cameraman a POV-style shot of her cramming that dick up her ass.

They go to a face-to-face as he fucks her pussy again while they're both standing up. The shot isn't great when the camera catches Demer from behind with her ass looking pinched, but he finishes up fast and shoots his cum in her mouth.

Scene 3: Porscha Ride

Porscha's a pretty blonde who begins by climbing into a bubble bath to warm up, but she's out again soon to play with her pussy. When her scene-mate arrives, they waste no time and she gloms onto his dick before he turns her around to eat her ass.

They go at it doggie style before he starts to warm her up with his fingers. When he slides his dick in her ass, she holds a vibe to her clit that seems to make all the difference as she seems to enjoy it. They switch to a sideways fuck and Porscha grunts quietly every once in a while to prove she's interested.

She rides him before going ass-to-mouth then fingers herself while getting fucked in the ass missionary style. The scene closes with him popping off on her mouth.

Scene 4: Kayla Sinz

Kayla, one of the hottest girls on the disc, has the unlucky distinction of being the one with the grossest asshole. After starting with some inane chatter, this stocking-clad blonde plays with herself until her co-star arrives to fuck her face.

They begin with missionary position and Sinz seems to be enjoying it. She licks her pussy juice off his dick before sitting down with it in her ass. If the camera had stayed with that position, there'd be no problem, but in a switch over involving ass-to-mouth, we see her ass and it looks dirty. Not just dirty, but either that's a mole or something much, much worse. There's only a couple of rules in anal sex videos as far as I'm concerned and this scene breaks one by putting that doubt in the mind of the viewer.

Her co-star doesn't risk another switch and ends the scene by cumming on her ass.

Scene 5: Kelly Leigh

Looking rough, Kelly comes into the scene sweaty and pale. She looks like Jerri Blank from "Strangers with Candy," which is not a good thing.

She plays with herself and when her man arrives starts blowing him. What she lacks in looks, she does make up for in enthusiasm, really moaning and groaning when he takes her doggie style. Kelly sucks on his dick again until he puts her on her side and begins fucking her in the ass. Unfortunately this highlights her stomach, which is not glamorous, though it's not long before he's fucking her spread eagle.

She takes a load on the face and seems happy about it.

The Picture:

Combat Zone doesn't go overboard with video quality, but they don't undersell, either. Shown in fullscreen Mommy Dear Ass is not visually stunning or visually distracting. The camera might stray into some less-than-flattering shots, but it's not bad work overall.

The Sound:

If you want to hear the dirty talking from the girls or the cameraman, turn your stereo waaaaay up. But beware when the sex starts, because then you'll have a lot of grunting and moaning that the neighbors will hear. Why the microphones don't work during the talking, I don't know, but it's annoying and makes the disc seem cheap.

The Extras:

Pretty standard fare. Trailers for other Combat Zone titles, a cum shot loop and a photo gallery are included, as well as Web access to Combat Zone's site.

In Other Words...:

In the words of Franz Ferdinand, "You could have had so much better." **Mommy Dear Ass** has three good scenes, marred only by a few shots that unflatteringly accentuate the age of the women. The last two scenes fall apart because of what appears to be a lack of hygiene and use of an actress that looked way past her prime. For those who like MILFs and anal sex, this one gets rated **Rent It**. Still, there must be better choices out there.
